

Digital Solutions/Inmate Telephone, Inc.

Juvenile Detention Center

Managing juvenile offenders requires a unique approach. While many adult offenders are herded through the criminal justice system, corrections officers who work with juveniles know that special care can often turn a misguided youth around.

DSI also recognizes that these differences affect the way juvenile cases are managed, so DSI developed Juvenile Detention Center.

JDC is designed solely for use in juvenile correctional facilities, putting your special needs - Privacy, etc. - first.

Because accurate reporting is a cornerstone of the corrections industry, DSI has built-in reports that cover a wide range of topics, and DSI has made sure its software can easily interface with Seagate's Crystal Reports for simple custom report creation to accommodate your unique needs.

Additionally, JDC can be used with DSI's Digital Imaging System to attach juvenile photographs to case records, document dorm damage, create identification bracelets, and more.

Location Scanning

Location scanning keeps track of juveniles throughout your facility. Using stationary barcode scanners at each checkpoint, each juvenile's ID wristband is scanned, creating real-time movement and location information.

Incident Tracking

JDC features complete incident tracking. You can record all juveniles and staff members involved in the incident, where the incident took place, notifications, outcomes, and more.

Custom Assessment Tests

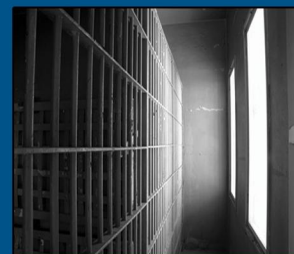

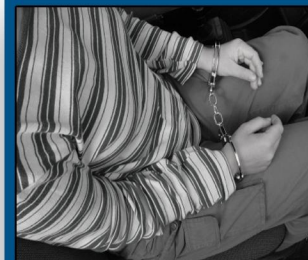

Create and administer your own assessment tests. Use JDC's assessment test template to create Risk, Suicide, and Drug assessments, calculate results, and assign a status when the test is complete.

Statistical Reporting

JDC simplifies your monthly statistical reporting. The program ships with multiple built-in reports that cover the areas you need to report most. For facilities that have special reporting needs, JDC easily interfaces with Seagate's Crystal Reports for simple, custom report creation.

Features & Capabilities

- Detailed Physical Descriptions
- Detailed Contact Information on Family Members
- School Information, Including History
- Original and Final Offenses
- Aliases
- Gang Affiliation/Enemy Check
- Risk, Suicide, and Drug Assessments
- Approved Visitors Lists
- Temporary/Permanent Releases
- Detailed Court Status
- Bench Warrants
- Medical Alerts
